

aTouchAway

aTouchAway is an easy-to-use mobile application that connects health care providers to patients and their families. aTouchAway enables patients to manage their care or recovery safely at home – reducing hospital visits, and improving the care experience.

Simple and Secure Communication

Video Calling

Talk face-to-face with your health care team.

Alerts & Reminders

Respond to personalized alerts and reminders set by your health care team.

One Touch Access

Alert contacts and get support with the touch of a button.

aTouchAway is offered as part of our hospital's Early Accelerated Discharge Initiative.

Surgery

You qualify to use aTouchAway because your surgeon has identified you as a candidate for accelerated discharge. If your health condition remains stable, you will be discharged the day after your surgery with the support of aTouchAway.

Setup

Download the application to your mobile device

- Aetonix.com/download
- App Store

Create an account

Practice
