

Clinical Connect

What is Clinical Connect?

- Web-based portal (www.clinicalconnect.ca)
- Provides real time access to patients' electronic medical information
- Includes the 4 South West Ontario LHINs
 - Excluding Oakville (is a part of the GTA LHIN)
- Information is up-to-date, accurate, and complete, assisting clinicians to make medical decisions
- Ability to launch out of Meditech EMR via Contextual Launch

What information is available in Clinical Connect?

- Hospital admissions and visits
- Results – Lab, Microbiology, Pathology, Blood Bank
- Transcribed Reports – Discharge Summary, Consults, Oncology Reports
- Diagnostic Reports and Images
- Pharmacy – Medication use while in hospital
- Allergy Information
- CCAC Client Health Information

Key Benefits of Clinical Connect

- Improve workflow and efficiency by ensuring immediate access to essential patient information
- Secure and private access to real-time health information
- Reduction in duplication of tests and procedures (cost and time savings)
- Improve transfer of care across health care providers and organizations
- Reduces duplication of documentation
- Improves coordination of patient care
- Increases patient safety and quality of care

Clinical Connect Usability

- One consolidated view of information
- Securely encrypted over the internet
- Configurable by the user for personal preferences and differing priorities
- Easy navigation
- Available on desktop and mobile devices
